

## Theme - change

To create a new theme, copy the original theme „**default**“ in the folder / **support** / **themes** / with a new name.

Inside the folder there is a file describing the appearance using cascading style sheets: / **css** / **screen.css**.

### Images in the folder /images/:

<b>Company logo:</b>	<b>logo.gif</b>
<b>Main menu background:</b>	<b>body-background.gif</b>
<b>Page background:</b>	<b>body-page-background.gif</b>
<b>Form button:</b>	<b>button2.png</b>
<b>Link buttons:</b>	<b>button-background.gif, button-background-hover.gif</b>
<b>Notification icon:</b>	<b>info.gif</b>
<b>Login page:</b>	<b>login-background.gif, logo-background.gif, error-background.gif</b>

Apply a new theme using the parameter:

„**tech\_support\_theme**“ in ISP admin -> **Settings**-> **Syst. settings** -> **User interface**.
